## Lothian Hotspot Excursions

There are many extraordinary places to visit in the surrounding countryside outside Edinburgh that include; ruins, castles and sites e.g. An alleged alien base in plain view near Gorebridge, ancient Reptilian worship site at Rosslyn glen, near the famous Da Vinci Code chapel and castle and Ghosts and Greys and cattle mutilations at Crichton castle [on film] and Skywatches [appropriately kitted out for the weather], Goblin halls, Cairnpapple faerie hill, Bonnybridge UFO hotspot and the site of the 11th Century sighting of an orange ball UFO by St Cuthbert at Soutra Law which later became a Templar hospital and pilgrimage.

Note that all tours are subject to signature to a general disclaimer - downloaded from the Stargate Edinburgh website, and the tour agendas can be altered for those wishing more specific research, though notification is required in advance so that any altered logistics and schedule can be checked.

Transport arrangements and costs are in addition to the Tour Guide fees and may be designated to a third party transport operator and hire depending on the size of the party.

An exciting blend of history and Mythology, local interviews and amazing footage is delivered by 2008 Who's Who [De Lafayette] published author and researcher & Radio/TV expert Andrew Hennessey. Andrew has worked with the Discovery Channel, the History Channel, Mentom TV, and radio shows such as Now That's Weird with Ross Hemsworth, Nightsearch.net with Eddie Middleton, Jeff Rense, and also with Trice Sheridan.

### The Gorebridge Tour

recommended.

The recommended Lothian's excursion includes; Gorebridge, telephoto session of the alien base area from Dalhousie castle, plus a briefing on the history of alien activity in Gorebridge with reference to the imagery coming out of that town. Hear the story of the Dalhousie castle abduction, and visit Crichton castle and the valley of bones - 'dinosaur valley' to the locals where a werewolf is alleged to hang out. Then Soutra Law [hill] includes; Pilgrims, Medieval hospital and site of a possible alien city. Plus a meeting with Jackie Gillies, cameraman and interstellar contactee who can guide us to a skywatch vantage point in the local hills where we can see this amazing air traffic. He also witnessed the locality of a local stargate.

### The Rosslyn Tour

Visit the Reptilian spirit rock by the river in Rosslyn Glen below the famous blueblood DaVinci Code chapel. It has a Bronze Age carving of a Reptilian head of Sumerian or Anunnaki provenance that is part of the secret mystery tradition and pagan worship that has taken place in the glen since ancient times. Hear the local underground tales and of the Gypsy pageants and of the Black Dog of Rosslyn Glen, the werewolf story that has both ancient and modern witnesses [1992]. Hear the story of the missing 9th Roman Legion and its last resting place. Given that we're there - opt also for the more traditional walk-round of the famous bloodline chapel. Rosslyn on 18th century maps had a place called 'Paradise' - now a cloning lab at Dryden.

### The Bonnybridge Triangle.

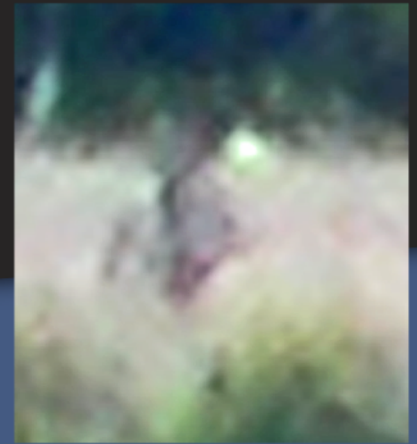

Everybody that looks at global UFOLOGY has at one time heard of the town of Bonnybridge, UFO hotspot - it was the worlds number one UFO hotspot - but few have made the sinister connection that may explain the fact that it is not so busy now. Hear the story behind the story. Hear the story of Bob Taylor whose close encounter at Dechmont woods began the modern era of Scottish UFOLOGY. Hear of the famous A70 Abduction story and what happened to Garry Wood and Colin Campbell and what has happened since 1992. What is the Templar connection? Why do some people think the Bonnybridge triangle is the Elven woods of JRR Tolkeins Lothlorien. Visit Cairnpapple hill and hear the incredible faerie story

Controversy, in crowded skies and a local circus of the strange

'You can't tell the people' famously said ex-PM Margaret Thatcher - but they already know Maggie,

Greys posing for photos - Gorebridge 2009

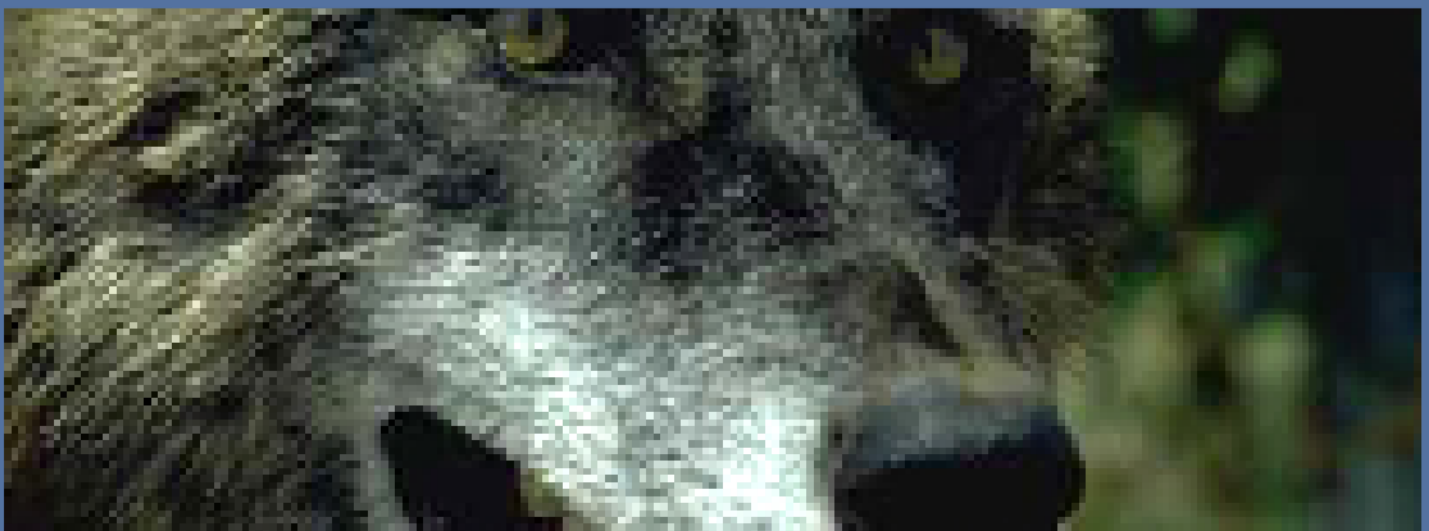

Carrington, near Gorebridge, 2009

**“All the original footage and images are available for scientific scrutiny under controlled circumstances”**

The werewolf picture below is a mock-up for illustration purposes only but we have diligently handed our original master tapes over to alleged UFO authorities - only to find one such tape be returned from a leading UFO organisation with the UK soap opera East Enders taped over it ... Although people complain about the artificial nature of digital enhancements at the blurry limits of zoom lenses etc there is ultimately an excellent opportunity here for you to come and take your own footage and pictures with your own kit.

I cannot guarantee that the aliens will pose for you the way they have for myself or Jackie Gillies and some of the people in these areas - but the level of activity at Gorebridge is still very high with every indication that the Eastender colonists in Gorebridge operate their own status quo
